# RED-WING AZALEAS grow faster!

## RED-WING U. S. Patent No. 1159

Rich red, with orange undertones. Extra long-lasting ruffled hose-in-hose flowers, neat, compact.

## \$500 REWARD

for information and facts leading to successful prosecution of anyone who may be infringing upon this patent.

### How to Grow Red-Wing Azaleas for Christmas Forcing

1. The last pinching should be in May. If plants are grown in Greenhouse, last pinch can be made in late June.
2. After buds are fully developed, usually in September, plants should be kept in cool place till ready for benching.
3. Bench about November 1st with night temperature about 60 degrees. Raise temperature if necessary to 65 or 70 degrees. A low nitrogen-medium phosphate fertilizer may be added at start of forcing period.
4. In areas where soil or water is alkaline, aluminum sulphate or iron sulphate at the rate of 1 oz. to 3 gallons of water every 2 weeks may be used if needed.

### How to Grow Red-Wing Azaleas for Late Winter and Spring Forcing

Make last pinch in July or August and when plants are ready to make buds, they should be kept in a Greenhouse or Lath House that has a fairly high day temperature and cool night temperature.

- ★ Fastest Grower
- ★ Ideal for X-mas forcing.
- ★ Breathtakingly beautiful.
- ★ Holds flowers exceptionally long.
- ★ Root system as strong as grafted azaleas.

Because of its natural fast growing habits you will find you can cut your growing time over 40%. Many leading Azalea growers use Red-Wing because of this drastic reduction in growing overhead.

### Budded, Red-Wing Azaleas

Assortment of other varieties shipped on request.

F.O.B. Calif. Prepaid U.S.A.

Red-Wing Azaleas are the fastest growing of the popular forcing Azaleas on the market.

Herewith is approximate size, Red-Wing Liners will make this Fall if planted this Spring.

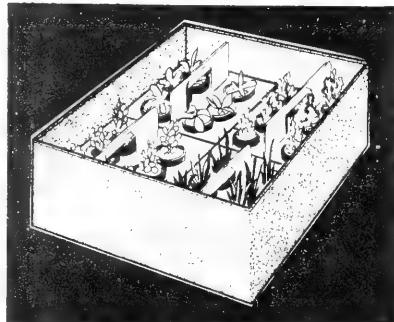

If planted this spring Red-Wing Azaleas should increase in the Fall, to  
in sizes

3 x 3"	6 x 6"
3 x 5"	8 x 8"
5 x 6"	10 x 10"

Made of Heavy Kraft Board and printed in attractive green basket weave design.

- ★ Promotes more multi-unit sales.
- ★ Protects plants, reduces handling damage.
- ★ Comes flat to save storage space.
- ★ Sets up quickly.
- ★ Is easy to carry by hand, car, or on public transportation.
- ★ Will hold 6 live plants in pots of diameters of 2", 2 1/4", and 2 1/2".
- ★ Ideal for Nurseries, Florists, Supermarkets!

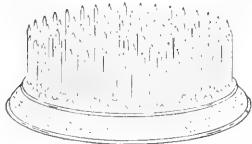

#### Save 1 1/2 Cents per Plant with PLANT CARRIERS

## **DRAGON LIQUID FERTILIZER PROPORTIONER NO. 2**

## For Greenhouses and Nurseries

Model #20 F.O.B. Oakland Prepaid U.S.A.

Capacity: 23 gallons \$325.00 \$350.00

Made in larger sizes to fit any size pipe line. Write for prices on larger sizes.

- ★ Accurately measures fertilizer in safe proportions.
  - ★ Fertilizes and waters in one operation.
  - ★ It furnishes nutrients in solution.
  - ★ Easily adjusted for proportions of one to ten to one to 100.
  - ★ Can be used on any type of irrigation system.
  - ★ Does not cut down on water flow. Accuracy maintained regardless of any changes in water pressure or rate of flow.
  - ★ Light, portable, easy to handle, large rubber tires.
  - ★ 5" filler cap opening makes fertilizer changing simple.
  - ★ No moving parts to go wrong.
  - ★ Guaranteed for one year, against any defects. Any repairs needed will be made at no cost, if freight is paid by customer to and from Nurserymen's Exchange.

**Operation:** The Dragon Proportioner Dispenser is a hydraulic unit, built for the application of liquid fertilizers. A special Venturi operates the Dragon Injector and is connected directly to the water line causing it to inject concentrated fertilizer in a direct ratio to the amount of water passing through. Water flow or pressure change does not affect ratio of injection.

**Control:** Control of the proportions is at the will of the operator. The exact amount of fertilizer being injected may be seen through transparent hose. Five inch wide filler cap makes charging or draining a simple matter. No wrenches required.

## DRAGON LIQUID FERTILIZER DISPENSER NO. 1

## For Sprinkler Systems and Pipe Lines

Size	Fertilizer Capacity	F.O.B. S.F.	Prepaid U.S.A.
#20	100 lbs.	\$177.00	\$184.50
#40	200 lbs.	225.00	235.00
#80	400 lbs.	301.00	316.00

**Dragon Fertilizer Applicators** are a self liquidating investment because they make use of existing sprinkler irrigation systems to bring the farmer fully automatic fertilizing—thus eliminating a separate costly fertilizer operation. The Dragon Fertilizer Applicator comes complete with transparent hoses, adjustable venturi, and patented equipment to do an outstanding job.

The time to fertilize is during the irrigating season. When the farmer sprinkles with fertilizer, he gets these additional benefits: (1) tighter control over fertilizer placement, (2) close regulation of fertilizer depth, (3) greater plant response since supplemental nutrients distributed through the sprinkler system are already in liquid form ready to be used by the plant. This control plus concentration means that the farmer can use less fertilizer per application and fertilize more often for over-all better results.

The Dragon Fertilizer Applicator transforms dry soluble type fertilizers into liquids.

**Dragon Fertilizer Applicator** is charged with the amount of dry fertilizer needed for the area covered by the operating sprinklers on a per acre basis. The speed of application can be controlled as desired. The complete unit can be shut off at any time while the sprinkler irrigation system is operating if for any reason this is found necessary.

# For Liquid Feeding- BLOOM-RITE

DILUTION: One pound to 23 gallons of water.  
One teaspoonful to quart of water.

Strength and Nutrition  
... the Magic Formula for

## New BIRD PEAT POTS

Bird research scientists performed real magic in developing the new Bird Peat Pot—rugged for easy handling, nutrient treated for healthy plants. Special formula gives added rigidity to help prevent chipping during shipping and handling. Yet roots penetrate freely. Rugged rim provides extra strength at the most vulnerable area—to protect top from breakage. Pot is nutrient saturated to stimulate healthy and speedy premium growth.
